WORK EXPERIENCE

AttainU

Oct 2022 — July 2023

Full Stack Developer Trainee

I have been working as a Full stack developer trainee at AttainU. I started working on Backend technologies like Node, Express and MongoDB as well as Frontend technologies like React, Redux, JavaScript, Python and SCSS.

Projects-

Expense Tracker:

I have built an application to track the expenses of a person. After login we can add expenses and the month of the expense. We can also see them in charts in the analytics page.

Tech stack used - Node, Express, MongoDB, EJS, HTML, CSS, Chartjs

Deployed Link - <https://expense-tracker-frontend-6ph6.onrender.com/>

Project Management App:

I have built an application to track the lifecycle of a Project. After login we will be able to add a project and it's participants, add bugs and tasks for them as well as add any documents required for the project.

Tech stack used - React, Node, Express, MongoDB, HTML, CSS

Deployed Link - <https://project-management-frontend-u6fe.onrender.com>

Cryptocurrency Tracker:

I have built an application to track the price and movement of Crypto Currencies with the help of a free API.

Tech stack used - React, HTML, CSS

Deployed Link - <https://cool-dolphin-7f6b27.netlify.app/>

Infex Technologies

Dec 2020 — June 2022

Software Developer

Worked as a software developer focusing mainly on Technologies like React, Redux, Python and Javascript

EDUCATION

B.Sc, Mathematics and Statistics

2013 — 2016

Victoria College, Palakkad
